Do you have any areas that need clarifying?

What a great experience for all of us during the first phase, now if your head has just about stopped spinning (don't worry it's a normal reaction) does any one have any problems at all?

You are encouraged to share your questions on here so we all benefit and to save repeatability however you can email me if you would prefer to keep anything private.

Best wishes John

On the match analysis form, you use the 'long free kicks'. Does this term include the goalkeeper kicks in addition to the fouls?

Dear Martin,

I tried to find the software (smart board) through the site that you gave us, but I could not find it. This site has various software, but not for football. So, I cannot access the files that you have given me.

Please send me the exact name of the software and the version so that I can check on the internet to find it.

Thanks and best regards
